Hopeless and Helpless.

The consequences of a diseased condition of the stomach and digestive and nutritive system are most disastrous to the whole body. One by one every organ may become involved. The misery is maddening. The most extreme cases of "stomach trouble" and the evils resulting from it have been cured by Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, purifies the blood and builds up the body with sound healthy flesh.

"I was taken with severe headache," writes Thomas A. Swartz, Box 102, Sub-Station C, Columbus, Ohio, then cramps in the stomach, and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. I just gave money to the doctors whenever I thought they would do me any good, but the more I doctored the worse I got until six years passed. I had become so poor I could only walk in the house by the aid of a chair, and I got so thin I had grown up to do thinking that I could not be cured. Then I saw one of my neighbor boys and he said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles in about six weeks I was weighed and found I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy as today, I think, as I ever was."

Dr. Pierce's Pleasant Pellets cure biliousness.

Searching for a King's Body.

Ever since a rumormongering agitation has been going on in the Neapolitan province in connection with the supposed resting place of King Joaquin Murat, and schemes have been set on foot by living representatives of the Murat family to exhume and provide a proper monument for the body of the unfortunate monarch. Researches were begun recently in the Church of St. George the Martyr, at Pizzo, near Naples, where Murat is known to have been buried after his execution on October 13, 1815, in the castle of that city. The common burial place was opened after due precautions had been taken by the sanitary authorities, but no positive result could be arrived at, as it was found that the burying place in the vaults of the church had been filled with the bodies of victims of the cholera epidemic of 1837, and that it was impossible to distinguish the body of a king from those of persons subsequently interred. The researches have therefore been suspended, the vaults sealed up, and a report drawn up and sent by the local authorities and the representatives of the family to the effect that further investigations are useless. All the expenses of the researches have been borne by the government.—London Post.
